

Potter Class Learning

We enjoyed using the Beebot to explore the farm maps we created relating to the story 'What the Ladybird Heard'

We have been strengthening our finger muscles to help us write.

We have been thinking about 1 less than in our play

The children will be bringing home the new sounds covered. We have included a picture on each that corresponds with the story/action in jolly phonics. We will send the new diagraph sounds home each Friday.

We make a garage role play area. We build a petrol pump, changed, tyres and fixed the bikes.
