

Potter Class Learning

We have been thinking about Harvest and where our food comes from. We went to the church to practise our Harvest Prayer.

We built dens and tested them for strength.

We looked at vegetables. We tried to sound out each vegetables name. We then used the vegetables to make soup

We have been building towers. We tried to make towers taller than ourselves.

Please bring your sound cards into school each Friday as we will add our new sounds of the week then.
